**Water and Sewer Tapping Fees**

The following fees are based upon water or sewer mains which abut the property. Where mains do not abut the property, individually determined fees based on the cost of installation shall apply. Water and Sewer Taps are only installed by the Town's approved contractor.

Water Tap Fee (3/4" meter)	\$2500.00
Larger water meter size:	Cost of the installation determined by location details.
Sewer Tap Fee (3/4" water meter)	\$3000.00

The home/landowner/developer/contractor shall be responsible for the replacement of any damage to any roadway, paved or not, sidewalk, curbs, gutters, or driveways that may be damaged during the installation of a water or sewer line to their property. These repairs must be done without needless delay. These repairs shall be with equal quality materials and workmanship as the original undamaged surface.

The Town's representative or Engineer shall make the final decision on these repairs. Until all repairs are in conformity with the Town's representative or Engineer, no service will be delivered to home/landowner/developer/contractor.

All boring, repairs, excavation, and restoration, including paving or concrete replacement as required, shall be at the sole expense of the home/landowner/developer/contractor.
